Nahuel Menichetti

Full-Stack Developer

CABA, Argentina • +54 9 11 3252 8053 • nahuel.d.menichetti@gmail.com
github.com/Nahuel7709 • linkedin.com/in/nahuelmenichetti

PROFILE

Full-Stack Developer specialized in TypeScript, building web applications end to end with React, Node.js, Express and PostgreSQL. Experience designing REST APIs, relational data models, authentication and role-based authorization, plus professional experience working in Agile teams with code reviews.

WORK EXPERIENCE

Dec 2025 – Present — **Web Developer, LEB Entertainment**

- Rebuilt the company website from scratch after the client was unhappy with their previous one, gathering their requirements directly.
- Delivered 3 core sections — artist roster, upcoming shows and past-show highlights — with custom CSS/JS.
- Manage content, hosting and domain since launch, turning client needs into concrete changes.

Oct 2024 – Oct 2025 — **Web Developer (Junior), Globant**

- Built responsive UI components in React and TypeScript, integrating with REST APIs and handling state, routing and form validation.
- Wrote unit and integration tests with Jest and React Testing Library; used Git and pull-request workflows.
- Worked in a cross-functional Agile/Scrum team (backend, QA, PM) after completing Globant's internal React Academy.

EDUCATION

Oct 2022 – Present — **Bachelor's Degree in Computer Science (GPA 7.90), UADE — Universidad Argentina de la Empresa**
Relevant coursework: Web Programming, Databases, Object-Oriented Programming, Programming (Python, Java), Information Systems I & II.

PROJECTS

Sep 2026 – Present — **Car Rental — Full-Stack Rental App**
Repo: github.com/Nahuel7709/Car-Rental
Full-stack car rental app in TypeScript (React, Vite • Node.js, Express, PostgreSQL, Prisma), built through code-reviewed tickets with a senior engineer as mentor. JWT auth, role-based access, and bookings in a row-locking transaction preventing double-booking. Integration tests, CI, and deployed on Vercel, Render and Neon.

2026 — **StayHub — Booking-Style Accommodation Platform**
Repo: github.com/Nahuel7709/StayHub
Accommodation booking platform, final project for Digital House: Java 21, Spring Boot, JPA and MySQL with a React frontend. JWT authentication, role-based access and overlapping-booking prevention.

SKILLS

Frontend	React • TypeScript • JavaScript • Next.js • HTML • CSS • Tailwind CSS • Vite
Backend	Node.js • Express • REST APIs • JWT Authentication • Zod • Java • Spring Boot • Spring Security • JPA • NestJS (Beginner)
Databases	PostgreSQL • MySQL • SQL • Prisma • TypeORM
Testing & Tooling	Vitest • Jest • React Testing Library • Git • GitHub • Docker • Postman • Swagger/OpenAPI • CI/CD (Beginner)
Methodologies	Agile / Scrum • Code Reviews • Pair Work
Languages	Spanish (Native) • English (B2)

COURSES

2026 — **Professional Developer**, Digital House

2025 — **Mastering TypeScript** • **JavaScript Pro: Advanced Concepts** • **Next.js**, Udemy

2021 – 2022 — **Full Stack Web Certified Programmer**, Digital House
